

DALENA FARMS

**MADERA, CA
THREE GENERATIONS**

--

**YELLOW, RED, WHITE
& SWEET ONIONS**

Dalena Farms Inc. is a family owned and operated business located in the heart of California's sunny and bountiful Central Valley. Their prime farmland is ideally suited for growing exceptional onions. Everyday, **Joe Dalena** and three generations of his family work together to produce the highest quality **yellow, red, white, and sweet** onions available.

The **Dalena** family's commitment is reflected in all aspects of their operation. All of their onions are grown by them with personal attention on a daily basis. They start by selecting premium onion varieties and plant them throughout the fall and into the spring. This allows them to harvest fresh onions every day. They **hand harvest each onion** and take special care in the treatment of the onions from the field to their state-of-the-art packing and shipping facility.

Following strict safety guidelines, Dalena Farms ensures that their onions are **pesticide residue free** and that their fields are **NutriClean Certified** by Scientific Certification Systems. They are participants in **AIB International Food Safety Audits** and have maintained a Superior rating. Additionally, they have a trace recall program that allows them to monitor their product from the field all the way to the customer.
