

# CHIN FARMS

**OREGON & CALIFORNIA  
SINCE 1930**

**POTATOES, SPECIALTY &  
ORGANICALLY GROWN**

**Chin Farms** is the growing operation of **Wong Potatoes, Inc.**, a family owned business which has been **growing, packing, and shipping potatoes** in the United States since 1930. Their potatoes are shipped throughout the United States and the Pacific Rim countries. Each year, Chin Farms grows and ships over 70 million pounds of the world's favorite vegetable!

The owners are Dee Dee and Daniel Chin, **third generation** potato farmers in the **Klamath Basin**. The Klamath Basin is ideal for growing quality products because of its high elevation (4,100 ft.) and short growing season (115 days).

Their potatoes include **red, yellow, russet, and specialty potatoes** along with a **full line of organically grown potatoes**. Chin Farms grows about 2,400 acres of conventional potatoes, wheat, alfalfa hay, and dehydrated onions, and their organic division, Chin Family Farms Organic, LLC, grows about 2,500 acres of organic potatoes, wheat, and alfalfa hay.
